Mobile Application Development Laboratory:

The mobile application development lab is well established and equipped with Dell core i5 and desktop PC's. This lab is utilized by UG students for getting expertise in various languages like C, C++, Java, Python, and database management system. The lab system is upgraded with 8GB of RAM to support Android application development. And this lab supports various hypervisors like Oracle VirtualBox, Xen, OpenStack, etc., This lab facilitated with high-speed internet connectivity of the machines for online access.

S.No.	Name of the Equipment	Quantity (No.)	Lab Area (sq.m.)
1	DELL 3020, Intel i5 processor 3.30GHz, 8 GB RAM, 500GB HDD, 18'5" TFT Monitor, Dell Keyboard & Mouse	14	123
2	DELL 3010, Intel i5 processor 3.20GHz, 8GB RAM, 500GB HDD, 18'5" TFT Monitor, Dell Keyboard & Mouse	20	
3	Dell Opti plex 3040 MT, Intel Core i5-4590 Processor, 8 GB 1600MHz DDR 3,1TB (7,200 Rpm) HDD, 18.5" LED Monitor, MS116 USB Optical Mouse, KB216B USB Keyboard	20	
4	WorkStation Dell Precision 3620 Intel Xeon Processor E3-1226, 8GB 1600MHz DDR3 1TB HDD, 18.5" LED Monitor,2GB Graphics Card, MS116 USB Mouse, KB216B USB Keyboard	10	
5	Dell 9020DT, Intel i5 Processor 3020GHz,8GB RAM,500GB HDD, 18'5" TFT Monitor, Dell Keyboard & Mouse	7	
6	Epson-EB X31-Projector	1
