Open-Source Laboratory:

1/1/25

Open-Source lab is equipped with 10 Dell Desktop Systems and 20 Workstations and several hardware and IOT interfacing kits. In this lab, as part of their final year projects the students work together to develop many open-source applications, the hardware interfaced projects and Cloud based projects carried out will be undisturbed until they complete the project. The key focus is on instructing students to use Open-Source Tools.

S.No	Name of the Equipment	Quantity (No.)	Lab Area (sq.m.)
1	Dell Precision 3660 Tower CTO Base(T1000), Intel Core i7-12700 2.10 GHZ 12th Gen, RTX 3090 With Liquid Cooling, 1 TB SSD, 4 TB HDD 32 GB RAM	4	69
2	Dell Precision 3660 Tower CTO Base(T1000), Intel Core i7-12700 2.10 GHZ 12th Gen, RTX 3080 Graphics, 1 TB SSD, 4 TB HDD 16 GB RAM	6	
3	Epson-EB X31-Projector	1
